

Caversham Heights Creative Worship Team

The Methodist Church summarises our calling from God in four areas, one of which is worship, and we, as part of the Methodist Church, are committed to “underpinning everything we do with God-centred worship and prayer.”

One of the prime reasons for replacing our pews with chairs, was to make it much easier to offer a range of different worship experiences in addition to our traditional services, and we’ve already begun to do that. The ministry team have lots of ideas about how we might develop worship, but we can’t do this alone, and we’re sure there are many people with good ideas at Caversham Heights.

So we are setting up a group of people, with a variety of skills, who will be willing to meet regularly to develop our understanding of worship, and to plan worship events. Some of those involved will bring musical gifts; others will have gifts in the areas of drama, prayer, visual arts, technical stuff, and so on. Some people may just want to bring their enthusiasm for, or experience of, a variety of worship styles. Some members of the team will want to be active in the leading of creative worship, but others will prefer to be involved in the planning only. All will be passionate about worshipping God.

There are many, many ways to worship God together, and we hope that this new team will help us to explore forms that may be less familiar at Caversham Heights, and that as a result, we may be drawn deeper into our relationship with God, and better equipped to be disciples of Christ.
